1. Fishing vessels which leave Ustka are to be accompanied by WOP boats so that some of the fishers will be able to flee to Sweden. One WOP vessel will guard a unit of four or five fishing trawlers.
2. The WOP recently confiscated four West German fishing vessels which allegedly were fishing in the waters near Darlowo (Rigenwalde). The German crews of these boats are still imprisoned, but the vessels are being painted and have been given Polish names at the Darlowo shipyard; it is expected that they will be used to guard convoys of fishing vessels. All WOP vessels which will be used in connection with the check on fishermen are being equipped at Darlowo. Most of these vessels have six-cylinder "Hercules" motors, and are armed with one 12 mm "Dziszka"-type Soviet machine gun.
